CASE# 2017-00039890

CASE REPORT**NARRATIVE**

M.Rosa #627

Case #17-93890

Escape

On 11-16-17 at about 1218 hrs, I was dispatched to an escape that occurred at the Fairfax Hospital, Located at 10200 NE 132th ST, in Kirkland WA. I was advised the escape was [REDACTED] and she was last seen on foot heading west bound out of the hospital on NE 132nd Ave. I was also advised that [REDACTED] was at the hospital involuntary on a court order. My self and other units did an area check for [REDACTED] but were unable to locate her.

I contacted the reporting party [REDACTED] at Fairfax. She is a counselor at Fairfax. [REDACTED] supplied me with the court order for [REDACTED]. The order detailed [REDACTED] was to stay at the facility for 90 days for restrictive involuntary treatment. I asked [REDACTED] how [REDACTED] was able to escape the facility. She stated that [REDACTED] was being transported from one side of the facility to the other. While enroute they had to cross through the lobby which is attached to the main entrance. To enter or exit the lobby from the outside you have to either be buzzed in or have an access card. As they were walking through the lobby a male unknowingly opened the sliding glass doors with his card. Seeing the doors open, [REDACTED] took that opportunity to exit the facility. She fled west bound on NE 132nd Ave; as relayed by dispatch.

[REDACTED] asked if [REDACTED] were to be located that she be brought back to Fairfax to complete her treatment. Fairfax had a warrant issued for her return as well.

I had a BOLO bulletin created which was sent out to neighboring agencies.
